The dear crab in “The Little Mermaid” sings about the waters below.
Name the song and you shall crack the code.

Solution

The song, of course, is none other than “Under the Sea.” If you say “Under the Sea” out loud, it sounds like “Under the C.” From this you would know to look under each of the “C”s. If you read across taking only the letter under each of the “C”s, you get the location “science center computer lab.”

Legend:

Bolded: all the “C”s

Italics/Underlined: all the letters that are each immediately under a “C”
